- Intuitive, modern user interface/menu for easy operation (several languages available)
- Convenient main menu with one icon per screen and soft keys
- Magnifier functionality for display texts
- Simple operation via text-based sub-menus and soft keys

## Additional functions

- Plug-and-play - very easy installation: unpack, plug in, and call (handset registered ex works)
- Calendar with month overview and scheduler for:
  - 30 appointments with text and separate ringtone
  - Birthday reminder for each phonebook entry
- Alarm clock feature with adjustable melody and snooze function
- Room monitoring (baby monitor) with intercom function. in case of noise detection an external call to a mobile phone or an internal call to all handsets is being made
- Direct call function: Selection of a phone number by pressing any key

- Editable handset name
- Warning tone if the user leaves the range of the system
- Advisory tone (for key confirmation and low battery)
- Date and time settings saved in the event of a power failure

## Features when operating multiple handsets

- Toll-free internal calling
- 2 calls possible at the same time (1 external and 1 internal between 2 handsets)
- Phonebook transfer between different Gigaset handsets
- Internal call to all or selected handsets
- Call forwarding to a different handset with dialling/call back function
- Simultaneous ringing of all handsets for external calls

## ECO DECT

- Automatic reduction of the transmitting power depending on the distance between the handset and the base station
- Radiation-free in standby mode, even if several handsets are used, as long as all registered handsets support ECO DECT
