

SOLIS Flex Toaster

Type 8004

Individually adjustable toaster with 7 programs for different types of bread and pastries, 4 freely programmable memory locations, countdown timer and much more.

7 different bread types

7 individual programs for different types of bread: White or whole wheat breads, bagels, waffles, English muffins, braid and gluten-free bread.

Memory function

4 freely programmable memory locations eliminate the need to repeatedly enter your preferred settings.

Suitable for gluten-free bread

A special function with shortened toasting time browns even gluten-free bread evenly.

Defrost & reheat function

Simply defrost frozen pastries or quickly reheat toast or bread for ultimate convenience and optimal taste.

Count-down timer

The count-down timer displays the remaining duration of the selected operation.

Detachable bun warmer

The solid warming rack with heat-insulated handles warms up buns, croissants and much more.

Features

- + Centring mechanism for toast slices
- + The super-wide toast slots brown toast slices, bagels or English muffins up to a size of 12 x 13.5 cm.
- + Easy to empty crumb tray
- + Large backlit LCD display
